

Please reject NAB's petition 04-160. Our XM radio has been extremely helpful to both of us because of our very long commutes into work and back. We also travel long distances to see friends and family and the XM radio makes the driving much easier. The traffic and weather is very, very helpful and we PAY for this service. Our Xm radio offers a huge variety of music and information that simply is not available anywhere else. Please do not take this away from us.

Thanks,

Joel and Christy Tubbs
